LEARN GROW THRIVE

Educational Toddler Child Care NORTHSHORE YMCA EARLY LEARNING CENTER

Starting in January, the Early Learning Center will be offering an educational child care program for toddlers, children ages 18 to 29 months. Once children are 30 months, they move up into our full day preschool child care program which offers a structured educational preschool curriculum specifically created to help them succeed in kindergarten. These programs are designed to meet the needs of working parents by incorporating quality educational preschool throughout the child's day. Our classrooms are open from 6:30am to 6:00pm. Children may be in care a maximum of 10 hours per day. Each day we serve a Department of Early Learning approved breakfast and two afternoon snacks. Lunch is provided by parents, please note that we are a nut free program. Time is set aside each day for a nap and quiet activities. Our day is filled with small group learning, cooking, science and art projects and small and large motor skill development, circle time, free choice and outdoor play.

Monday-Friday 6:30 am-6:00 am

Children can be in care a maximum of 10 hours per day
