# AQUATIC DESCRIPTIONS

## SWIM LESSONS

We offer group and private lessons for swimmers of all ages and abilities. Y swim classes include five main components: personal safety, personal growth, stroke development, water sports & games, and rescue. Students swim at their own level and advance at their own pace. Advanced registration is required.

## AQUA FITNESS DEEP

Using a belt or noodle to assist flotation, this zero impact workout is great for any level or type of exerciser looking for a calorie torching hour of aerobics and strength training. Flotation devices may be limited based on location. Personal flotation belts are welcome.

## AQUA FITNESS

A variety of aerobic movements are performed in the shallow end of the pool to increase heart rate and provide both a cardiovascular and strength training workout. Water equipment may be used in this low-impact, high-intensity water workout.

## AOA AQUA FITNESS

This adult group water fitness program is designed to enhance each individual's quality of life and daily function. Active Older Adults utilizes the physical properties of the water to enhance agility, range of motion, and cardiovascular conditioning. Instructors help participants develop strength, balance, and coordination. No swimming ability is required as you learn in a format that is safe, fun, and effective.

## AQUA PILATES

Each class is uniquely structured and incorporates elements of both deep and shallow water aerobics with movements designed to increase flexibility and agility. Wear a buoyancy belt to assist in flotation if needed

## MASTERS SWIM

Masters Swim is a free opportunity to begin or continue your passion of swimming under the guidance of an experienced coach. You will be welcomed into a community of adults in an encouraging team atmosphere. This is a great program for all ability levels; novice, triathletes, and veterans are all welcome.

## OPEN LAP SWIM

2 or more lap lanes are available to any members at this time. Please be courteous of other swimmers and choose a lane that best fits your speed or age. Circle swimming is required when two or more swimmers are in one lane. Water walkers should follow lap etiquette on a space available basis. We reserve the right to use a lap lane for private swim lessons during lap swim.

## LIMITED LAP SWIM

During this time, other programs may be utilizing some of the lap lanes. Available lap lanes will be limited and may be designated for specific groups. Please be courteous of other swimmers and use circle swimming when two or more swimmers are in one lane.

**All children under the age of 13** who wish to participate in lap swim must complete a 200 yard continuous swim using one or a combination of the 6 approved strokes (crawl, back, breast, butterfly, elementary back or sidestroke). Children must show competency and proper technique in the strokes used during the Lap Swim Test. Fins, kickboards, and/or lifejackets may not be used during the Swim Test. Youth swimmers who can not complete the required 200 yard swim are asked to participate in Family Swim.

## ADULT LAP SWIM 18 & OVER

During this time, lap lanes are reserved for adult swimmers 18 and older. Please be courteous of other swimmers and use circle swimming when two or more swimmers are in one lane.

## FAMILY SWIM

The whole family is encouraged to swim together during our family swim hours. This time is perfect for young swimmers to practice their skills or just play and have fun. All swimmers under 14 years of age must abide by the swim test policy.

## YMCA SWIM TEST POLICY

### Family Swim:

To participate in recreational swimming activities, all children **13 years of age and younger** must undergo a **Swim Test** if they are to swim in any part of the swimming area alone. Children who cannot pass the Swim Test are considered non-swimmers and must be accompanied into the water by an adult, parent, or guardian who is actively engaged with the children's activity. There is a limit of 2 non-swimming children per adult.

### Swim Test:

Each child must demonstrate the ability to jump into the water, right themselves, and swim the **longest dimension** of the swimming area without reaching fatigue. Swimmers will be marked in some way that is readily identifiable to the Lifeguards.

After passing the Swim Test, swimmers 8 and older may be in the swim area without direct adult supervision. An adult is required in the building for ages 8-10. Children 7 and under who pass the Swim Test still require direct adult supervision in the pool area at all times.
