## GROUP EXERCISE CLASSES

### AQUA MS

This water exercise class is based on an exercise-rest-exercise pattern. We provide optimal exercise conditions for those with weakened limbs, fatigue and balance challenges. This class promotes strength, stamina and flexibility. The focus is on physical, emotional and social wellbeing.

### AQUA FITNESS & AQUA POWER

A variety of aerobic movements are performed in the shallow end of the pool to increase heart rate and provide both a cardiovascular and strength training workout. Water equipment may be used in this low-impact, high-intensity water workout. **AQUA POWER** takes the intensity to a higher level for a fun, challenging workout.

### AQUA ARTHRITIS & INJURY

This class is designed for those living with chronic pain, those recovering from an injury or those with limited mobility. This class takes a non-impact approach by using water resistant exercises to build strength and increase range of motion & flexibility throughout the body. You will feel the benefits of the warm water, slow-paced exercises while enjoying a fun social group setting. This is a fun filled, therapeutic class with others who understand managing pain. Note: This class does not replace physical therapy and participants are encouraged to check in with their physician before starting.

## LAP SWIMMING

### OPEN LAP SWIM

Two or more lap lanes are available to any members at this time. Please be courteous of other swimmers and choose a lane that best fits your speed or age. Circle swimming is required when two or more swimmers are in one lane.

### WATER WALKING

This is non-structured water fitness time for those who may be recovering from an injury, have chronic joint concerns, or are just changing up exercise routines. Participants are welcome to use aquatic fitness equipment available to achieve a vertical water workout.

### FAMILY SWIM

A quieter time in the pool, perfect for families with small children to enjoy time in the pool together. This time is perfect for young swimmers to practice their skills or just play and have fun.

### LIMITED LAP SWIM

During this time, other programs may be utilizing some of the lap lanes. Available lap lanes will be limited and may be designated for specific groups (18+) based on location. Please be courteous of other swimmers and use circle swimming when two or more swimmers are in one lane.

### NO LAP LANES:

#### Monday-Friday 9-10 AM

Children under the age of 14 must pass a lap swimming test (150 yds. continuous swim)

### RECREATIONAL SWIM

During recreational swim, some or all of the pool may be used for general exercise, recreation, or water play. All swimmers under 14 years of age must abide by the swim test policy.

## GENERAL POOL INFORMATION

### ABOUT THE POOL

Pool Temp: **84** degrees

Hot Tub Temp: **100-102** degrees

Length: 25 yards; 3ft-6ft deep

Main chemicals in the pool: Chlorine (under UV lamps)

We have stairs and a seated lift to help with pool entries & exits.

Please bring an assistant if needed.
