Strength Training: Strengthen and tone your muscles using weights and other resistance equipment.

Cardio Strength: This fun and challenging total body work-out includes a focus on both muscular strength and aerobic endurance.

Cycling: Indoor group cycling is a fantastic workout taught on a stationary bike where you will climb, sprint and everything in between. You control resistance and intensity. Cycle-Strength: Add 30 minutes of resistance training after a great cardio workout on the bike!

Step: A cardiovascular workout using adjustable platforms. Step classes are suitable for a variety of fitness and age levels. Instructors offer appropriate modifications so class is open to beginner and advanced steppers. Step & Strength combines aerobic choreography with strength training intervals.

Strength & Conditioning: This total body workout will test your strength and stamina while taking your conditioning to a whole new level; define and strengthen your muscles by constantly switching up the intensity.

Above the Barre: A dynamic standing and floor workout fusing lightweight strength conditioning, yoga and Pilates inspired moves to strengthen and tone the body. Class is designed as a barefoot workout, but not required.

DANCE FITNESS

Belly Dance Performance: This class is open to all– levels and is a drop in class with a focus on learning choreography. The instructor finds opportunities for those who would like to perform at various community functions. New choreography is learned every four to six weeks. Performing is optional, but having fun is not!

Belly Dance: Experience a fun Middle Eastern art form that focuses on the entire body. Get toned and have fun with an emphasis on abdominal control, hip and chest isolation, proper posture and relaxation through stretching.

Zumba®: Fuses fast and slow Latin rhythms in easy to follow moves to create a dynamic workout.

Zumba Gold®: Zumba Gold is easy and fun! More time is allotted for warm-ups, cool downs and steps are simplified and low impact. It is an ideal class for people who like to workout to fun music, active older adults, beginners to Zumba, and people wanting modifications because of injuries or physical limitations.

Mat Pilates: A system of stretching and strengthening exercises that work the deeper muscles to achieve efficient and graceful movement, improve alignment and breathing, and increase body awareness.
