AQUATIC DESCRIPTIONS

SWIM LESSONS \$

We offer a wide range of swimming options for the whole family! Classes are divided into ability groups. Students learn at different rates and are usually in each level more than once. Trained instructors emphasize personal safety, swimming skills, endurance, and social skills while guiding students with praise and encouragement. Advanced registration is required.

PRIVATE SWIM LESSONS \$

Whether beginner or advanced, private lessons are a great option for all ages and abilities with a one-on-one personalized approach. Trained instructors emphasize personal safety, swimming skills, and endurance, while guiding students with encouragement. Swimmers of the same skill level and same household membership may sign up for a semi-private swim lesson to practice and learn skills together. Advanced registration is required.

WATER AEROBICS - SHALLOW

A variety of aerobic movements are performed in the shallow end of the pool to increase heart rate and provide both a cardiovascular and strength training workout. Water equipment may be used in this low-impact, high-intensity water workout. Drop in class. No registration required.

LAP SWIM

3 or more lap lanes are available to any members at this time. Children 14 years old and younger must complete a 25 yard continuous swim using one or a combination of the 4 approved strokes (see below for more info). Please be courteous of other swimmers and choose a lane that best fits your speed. Circle swimming is required when two or more swimmers are in one lane. Water walkers should follow lap etiquette on a space available basis.

All children 14 years and under who wish to participate in lap swim must complete a 25 yard continuous swim using one or a combination of the 4 approved strokes (front crawl, breast stroke, butterfly, or sidestroke). Children must show competency and proper technique in the strokes used during the Lap Swim Test. Fins, kickboards, and/or lifejackets may not be used during the Swim Test. Youth swimmers who can not complete the required 25 yard swim are asked to participate in Family Swim.

RECREATIONAL SWIM

The whole family is encouraged to swim together during our family swim hours. This time is perfect for young swimmers to practice their skills or just play and have fun. All swimmers 14 years and under must abide by the swim test policy. Registration is required.

YMCA SWIM TEST POLICY

Recreational Swim: To participate in recreational swimming activities, all children **14 years & under** must undergo a **Swim Test** if they are to swim in any part of the swimming area alone. Children who cannot pass the Swim Test are considered non-swimmers and must be accompanied into the water by a supervising individual (+14) who is actively engaged with the children's activity. There is a limit of 2 non-swimming children per individual.

Swim Test:

Deep water plunge with head going below surface, swim the **longest dimension** of the swimming area without stopping and then tread water or float for 30 seconds.

Swimmers will be marked with a colored swim band

After passing the Swim Test, swimmers 11 and older may be in the swim area without supervising individual. A supervising individual 14 years old and up is required in the pool area for ages 10 and below. Children 10 and under who pass the Swim Test still require direct adult supervision in the pool area at all times but are not required to be in the water. Youth 15-17 who exhibit lack of comfort and/or cannot stand flat footed at deepest level with head above water, may be asked to pass swim test.
